MEMORANDUM FOR THE RECORD

Morning Meeting of 2 August 1968

The Director was at the White House. DDCI was in the chair.

DD/I informed that the revised version of the DIA/CIA memorandum responding to certain questions from Paul Warnke is ready and that General Carroll has concurred.

DD/I discussed the most recent GIANT SCALE mission and noted that, although the weather was good, the photography revealed little in the way of enemy traffic--possibly because the mission occurred during the traditional noontime siesta.

Godfrey reported on the Czechoslovak situation.

Godfrey noted that the three American pilots being released by the North Vietnamese will probably exit via Vientiane today.

Allen for Carver observed that the North Vietnamese representative in Paris issued a strong rebuttal to the President's recent statements on the war in Vietnam.

Maury noted that Representative Ogden Reid's next newsletter to his constituents will challenge the President's position on Vietnam in much the same way as the recent New York Times editorial.

Maury drew attention to the Senate's recent action on the Sentinel ABM program and advised that the Director was quoted as having assessed Soviet ABM capabilities as virtually nil. DDCI asked that Maury bring this to the Director's attention.
